

## Arthritis NSW is a registered charity which...

- Educates the public about arthritis
- Provides information on the importance of early diagnosis and proper medical treatment
- Promotes the benefits of exercise
- Encourages people to attend self-help programs and support groups
- Emphasises the need to fund more research

## OUR MISSION

The mission of Arthritis NSW is to improve the quality of life of those affected by Arthritis by providing patient information and education, by promoting community support and by funding research into the causes and cures of these disorders.

## How we are funded

The Arthritis Foundation of NSW is a non-government community health organisation relying on public donations to fund its services. We do receive a small grant from the State government to assist with our community education programme.
